# ABSTARCT

Altruistic Solutions is a policy research firm, and think tank, operating from Thessaloniki, Greece, founded in 2018 by Vladimiros Peilivanidis, Andronikos Koulis, and Jon Krafve.

The team currently consists of more than twenty colleagues and affiliates from all over the globe, specialized in different industrial areas to help us keep generating fresh, objective, while at the same time spherical ideas and concepts for the future.

Altruistic Solutions is currently working intensively in the hi-tech sector, where innovative new ideas are being generated every second.

Our main focus for the next decade would surround distributed ledger technologies, the Internet of things (IoT), and information technologies (IT), as well most of the modern industrial sectors.

*“We are basically a bunch of creative, and strategic thinkers, policy research specialists, fintech analysts and industrial professionals from almost any sector you can imagine, including academics, scientists and researchers, who want to help the future reach out to what we refer to as reality as soon as possible.”–*

**Vladimiros Peilivanidis, CEO**

At Altruistic Solutions, we focus on objective analysis and the creation of real and sustainable solutions, establishing long-term relationships with our clients, who are often surprised by the possibilities we present to them; by thinking creative, innovative, conceptual and sustainable solutions we present exciting new ventures in the following areas:

- Military
- Hi-Tech
- Biotech
- Health
- Positive Sciences & Philosophy
- Religion
- Industry 4.0
- European and International Affairs
- Education
- Law and Business
- Conceptual Futurism

# 1. THE COMPANY

## 1.1 OUR APPROACH

Altruistic Solutions approaches every client's business as if it were our own. We believe a consulting firm should be more than an advisor. We put ourselves in our clients' shoes, align our incentives with their objectives, and collaborate to unlock the full potential of their business. This builds deep and enjoyable relationships.

The right approach is necessary for the right outcome. Altruistic Solutions approaches work by applying its external knowledge to your organization's internal way of doing work. We know that in order to maximize the potential of success for your company we need to shape our expert advice in a way that applies to your way of doing business.

### **Military Research & Development**

We are a company with an excessive military background, specializing in alternative conceptual policies tailored to the demanding hi-tech sector.

We are currently researching: Noise Cloaking Mechanism, Advanced Autonomous UAV Fleet as a Surveillance System.

### **Hi-Tech**

Our strategic partners are at the top of the hill when it comes to technological advancement.

Altruistic Solutions is here to help you understand what's laying around the corner, before everyone else.

We are currently researching: AI, IoT, Blockchain & DLT, VR/AR/PR.

### **Biotech &**

#### **Health**

Having ties with some of the most profiling companies in the health sector, Altruistic Solutions is a key player when it comes to bioinformatics, genomics, and other innovative biotech branches.

We are currently researching: Medical Data Privacy, Genomics, Cryogenics, Digital Twins.

### **Positive Sciences, Philosophy, and Religion**

We are trying to understand the world from a spherical point of view, investigating every possible form of what we refer to as "reality".

We are currently researching: AI Theoretics, Quantum Theories, Old Testament, Hesiod's Cosmogonia, Giambattista Vico's La Scienza Nuova III.

## **Local, European & International Affairs**

Having long-term partners all over the globe, we establish strong links between our clients and governmental, banking, corporate institutions and research centers.

We are currently conducting public researches at European Commission's Futurium, European AI Alliance, NGI (Next Generation Internet), Socialists & Democrats' "Europe Together" initiative, Canadian AI Directory, Tilburg University, Delft University, and more.

## **Education, Law & Business**

We understand how modern societies work and that allows us to create futuristic concepts addressing how they (societies) should be transformed in order to be adopted by what we refer to as "the future".

We are currently posting public researches at European Commission's Urban Agenda for EU, and Socialists & Democrats' "Digital Europe" initiative.

## 1.2 OUR SERVICES

### 1.2.A Policy Research

Altruistic Solutions is made up of a team of dedicated researchers covering a wide range of modern industries.

We help you think and cultivate modern alternative policies to solve complex problems and see things from a virgin point of view while making sure the new policy is tailored to your needs and it is sustainable for the long-term.

Our policy research specialists are experts in Military, Financial, Hi-Tech, Biotech, Health, Positive Sciences & Philosophy, Religion, Conceptual Futurism and Industry 4.0, Local, European, Global Scale Politics, and Governing, among other sectors.

#### Research Process

##### Objective Analysis

Unlike many other policy research firms, that create solutions bringing short-term profit, while discharging the functionality of the company in the future, we focus on objective analysis to ensure we create a long-term solution that will solve your problem and your hands at the same time.

##### Immediate Solutions

Our international think tank will provide you with an array of possible solutions to individual problems you can choose from and apply the new policies immediately.

Long-term, self-sustainable solutions will set you free while you won't have to worry about 'bumping' into the same problem again in the future.

##### Frequent Updates

Altruistic Solutions will keep your data under a privacy agreement and will use them to test new policies when available while providing you with important updates and better solutions as times change.

That way, you won't have to visit a policy firm every time a law or third-party policy has changed; as at Altruistic Solutions we are aware of that and we will make sure you're ahead of the game when that happens.

—

At Altruistic Solutions, we are able to understand modern and ancient history, technological advancement as a "move", the evolution of the computing processor, the introduction of the world wide web and what we refer to as "Real Life" at the moment.

Led by a generation that lived through the evolution of the internet, we can comprehend both pre and post internet generations even when they seem to lose the ability to exchange accurate information.

What is yet to come, is inevitable and we at Altruistic Solutions can help you see it for yourself.

From carrying 5G networks and the Internet of things (IoT) to frequencies as a domain and smart city applications, the future is closer than you think.

## 1.2.B ALSOL Think Tank

ALSOL Think Tank is a special policy research task force compiled to investigate possible problems in the current hi-tech, financial, and geopolitical sectors, analyze them and create immediate, innovative, and sustainable solutions based on history, a complex cluster of data centers, and cutting-edge technological advancement's fruits.

The initial team consists of all Co-founders, and board of advisors including Vladimiro Peilivanidis, Andronikos Koulis, Jon Krafve, Kyriakos Karastogiannidis, Ben Mueller, Rafael Mone, and Simeon Polychronis among others.

### Strategic & tactical planning

Our clients prefer our think tank because we provide:

- Accurate, up to date, market data.
- Long-term sustainable solutions
- Industry specialists
- Necessary links to governmental, banking and corporate institutions
- Competitive cutting-edge policies
- Future insights

We focus on creating efficient plans to suit your needs, while at the same time making them as simple as possible to understand and easier to adopt.

## 1.2.B Audit & Assurance

An excellent Audit service is necessary for any company to be financially sound. Our Audit & Assurance services ensure that there is no mistake or wrongdoing in your company undetected. Some companies have the mistaken idea that audits are only necessary when malicious wrongdoings occur in the data. Thus any company that is large enough needs to have outside audit and assurance done:

- **Zenome** – Article and News Research/White Paper Audit & Assurance
- **European AI Alliance** – AI Policy Research
- **S&D's "Europe Together"** – Digital future of Europe Research
- **eGovernment4EU** – Policy Research
- **Next Generation Internet (NGI)** – Policy Research

## **Areas Of expertise**

### **Fintech**

We make sure your cryptocurrency investments and other digital assets are not volatile, by presenting research material conducted on the respective white papers, initial team, and news for the company itself as much as the industry it belongs to. Most of our team members are already trading and investing in cryptocurrencies despite their sector of origin, making Altruistic Solutions a future-driven collective of industrial specialists.

### **Distributed Ledger Technologies**

Not every blockchain is 'Bitcoin', and we understand that in order to help you track, understand, and implement aspects of this disruptive technology in your business and everyday life as a tailored solution.

Our team includes a variety of blockchain developers, engineers, and ICT experts already working with major DLT projects such as the German non-profit IOTA Foundation, and Russian bioinformatics firm Zenome, making Altruistic Solutions not just an experienced player in the scene but an active contributor at the blockchain industry itself.

### **Internet Of Things (IoT)**

From autonomous surveillance drone swarms to automated farming, we help you track, understand and implement cutting-edge IoT technology to your business and everyday life, always as a tailored solution.

Altruistic Solutions is not just aware of, but it is an active contributor to creating international IoT standards and protocols in the European area, giving you a strategic advantage when it comes to the upcoming fourth industrial revolution (Industry 4.0) with which we are in sync.

### **Artificial Intelligence (AI)**

With members from the European AI Alliance, and the Canadian AI directory, Altruistic Solutions makes sure you're up to date when it comes to AI developments, as well as significant ethical, philosophical, and religious aspects the AI is carrying with it.

We help you understand and implement Artificial Intelligence systems in your business. By combining various forms of modern AI we manage to create the most efficient solution, suited to your case.

### **Future Urban Planning**

Altruistic Solutions is working closely with the European Commission's UrbanAgenda4EU workgroup, as well as the Socialists and Democrats (S&D) Party's "Europe Together" initiative to help the older generations understand what's yet to come in the most simple way while boosting latest generations (Y, and Z) to surpass their psychological fears of the current governmental structure, in order to share their brilliant ideas for a better tomorrow, that is really just around the corner.

With architects, policy researchers, and urban planners on the board we are ready to help you understand how future societies will work, in order to shift your business and everyday life before everyone else.

## **European, and International Affairs**

Our team and associates are involved in every major sector you can think of. From the European Parliament, and Commission, to G-20's regulatory task forces.

We help you find the right partner and/or consultant that can help you elevate your business in its respective sector, using cutting-edge technology and strategy models.

## **Why Companies and Institutions Choose Us**

### **Professional Analysts**

Altruistic Solutions consists of a group of specialists, covering a big spectrum of the modern industrial sectors. Thus, we have the ability to study and analyze a case from a spherical point of view, analogizing all possible solutions with a cross-industry mindset.

### **Strategic Partners**

We are proud of our affiliate partners, and colleagues and they are proud of us. At Altruistic Solutions, we focus on long-term sustainable solutions in order to create and maintain strong relationships with our partners.

### **State of the Art**

Altruistic Solutions provides you with top-shelf strategic advice to help you fit in the post-Industry 4.0 era, with innovative marketing plans, based on a database connected to more than a dozen modern industries.

## **Range Of Markets**

### **Cryptocurrencies**

We are actively investing in, consulting, and auditing blockchain projects focusing on alternative monetary systems.

You have the right to know the difference between a working project with a viable future, and a fraud, planned against people with a weak understanding of the underlying technology behind cryptocurrencies.

### **IoT**

We are actively involved in the upcoming fourth industrial revolution (Industry 4.0), with most of our members already working with or leading international IoT firms, giving us a tactical advantage when it comes to the developing IoT market that is going to surpass several trillion dollars in market cap during the next decade.

### **Space**

We are aware of what's around the corner when it comes to technological advancement, and the space industry is also a few steps before a brand-new boom. While people still believe in NASA's monopoly, there is a huge private Space industry being developed in the US, Europe, and China,

leading to an autonomous private sector and market that will be as common as the automobile industry nowadays.

## **Big Data**

We understand the value of digital information in the modern times, and we help you find the right ways to utilize the value of your own data, having a good understanding of a huge spectrum of the modern data markets.

## 1.3 OUR TEAM

### Vladimiros Peilivanidis (Founder & CEO)

#### areas of expertise

- European & International Affairs
- Future Trends
- Hi-Tech Integration
- Artificial Intelligence
- Industry 4.0

#### education

- Music Technology & Sound Engineering, Delta College
- Advanced Surveillance Systems Operations, Hellenic Army
- Digital Currencies, University Of Nicosia

With multi-year experience in entrepreneurship, management, business planning, financial analysis, hi-tech integration, operations, and future planning, Vladimiros has the breadth and depth of experience needed to quickly understand entrepreneurs' businesses and craft the most suitable solutions.

***"We wanted people to understand that the hi-tech sector is not just another sci-fi concept but it's on the verge of its boom. We're here to help you fill the gaps between fantasy and reality"***

Before founding Altruistic Solutions in early 2018, Vladimiros started a digital media outlet and an electronic record label. Previously, Vladimiros was working with the Transits Division of the Hellenic Army as an Advanced Surveillance Systems Operator.

Vladimiros held various writing positions at Oracle Times, Hacked.com, and CCN.com, where he posited financial analysis on emerging volatile digital assets (cryptocurrencies).

He worked as a private consultant for major cryptocurrency brokers like Paxful Inc, and he is currently the International Affairs Officer for Russian bioinformatics company Zenome, where he started as a strategic advisor last year.

Most recently he joined the European Commission's Futurium, where he is a member of several works groups, including the European AI Alliance, Urban Agenda for EU, eGovernment4EU, NGI (Next Generation Internet) among various other task forces.

Last, Vladimiros is also a member of the Socialists & Democrats (S&D) party at the European Parliament, positing future views at the "Europe Together" initiative.

# Andronikos Koulis (Co-founder & EU-West Director)

## areas of expertise

- Policy Research
- Strategic Planning
- Hi-Tech Integration
- Psychology
- Linguistics

## education

- Political Sciences, Aristotle University of Thessaloniki
- Social & Behavioural Psychology, Tilburg University

Andronikos is one of our founding fathers and the director of Altruistic Solutions' EU West department. As a psycholinguistics researcher, who's merging this field with the perspectives of Social Psychology, Andronikos is an excellent coach and strategist, using cutting-edge interpretation techniques and hermeneutics to help your business stand out while focusing on creating tailored solutions based on intellect, technology, media and mentality that represents your business.

***“With the help of the AI we could figure out the underlying mechanisms of the construct of Language, as in how the mankind evolved to acquire this trait and how this trait actually works both at the physiological and psychological levels.”***

Before joining Altruistic Solutions, Andronikos have changed a significant amount of geo-locations within the broader European Area, in order to meet and understand various social and psychological differences ranging between modern cultures.

In 2016, he moved to Tilburg, Netherlands in order to pursue his vision of creating a brand-new modern, and efficient way of verbal communication, based on history, current trends, and future needs.

Andronikos is considered to be very charismatic with intellectual creations, being able to objectively analyze, understand, and influence a live situation using nothing more than a few specific words under a specific arrangement.
